

QUALITY TEST CERTIFICATE

This Certificate is issued to assure that all of the products produced by Hunter Industries are assembled and tested to the current issue of our Engineering documents in effect at the date of manufacture.

It further certifies that that all Hunter products conform to the specifications listed in the Hunter Irrigation Products Catalog 2004-2005. In addition, the published flow rates and radius data listed in the catalog were tested in accordance with ASAE Standard S398.1, Procedure for Sprinkler Testing and Performance Reporting.

It further certifies that all of the warranty provisions stated on the inside back cover of the Hunter Irrigation Products Catalog 2004-2005 are in effect.
